

Instructions to Install RAPTOR KIDS Build – VEFB 1.1

About

The RAPTOR KIDS build consists of a routine that creates two new TIU note titles – “RAPTOR NOTE” and “RAPTOR SAFETY CHECKLIST”. The routine is deleted from the system once installation completes.

Installation

The RAPTOR KIDS build is installed per usual operating procedures using the Vista KIDS menu. The package should be placed on the Vista system where the note titles are to be created, loaded and then installed. In the instructions below, we will use screenshots from an Intersystems Cache test Vista installation. The KIDS will be placed at the root of the C:\ drive. The process of placing the KIDS build on a test/production VA Vista system will be different. Please follow your normal procedures.

Please note: the version information in the screenshots may not reflect the version numbers in the instructions. Please use the version information in the instructions.

1. Navigate to the root KIDS menu (XPD MAIN)

```
Cache TRM:3564 (CACHE)
File Edit Help
Terminal Type set to: C-VT320

Select OPTION NAME: XPD MAIN      Kernel Installation & Distribution System

      Edits and Distribution ...
      Utilities ...
      Installation ...
      Patch Monitor Main Menu ...

<CPM> Select Kernel Installation & Distribution System Option:

Do you really want to halt? YES// N

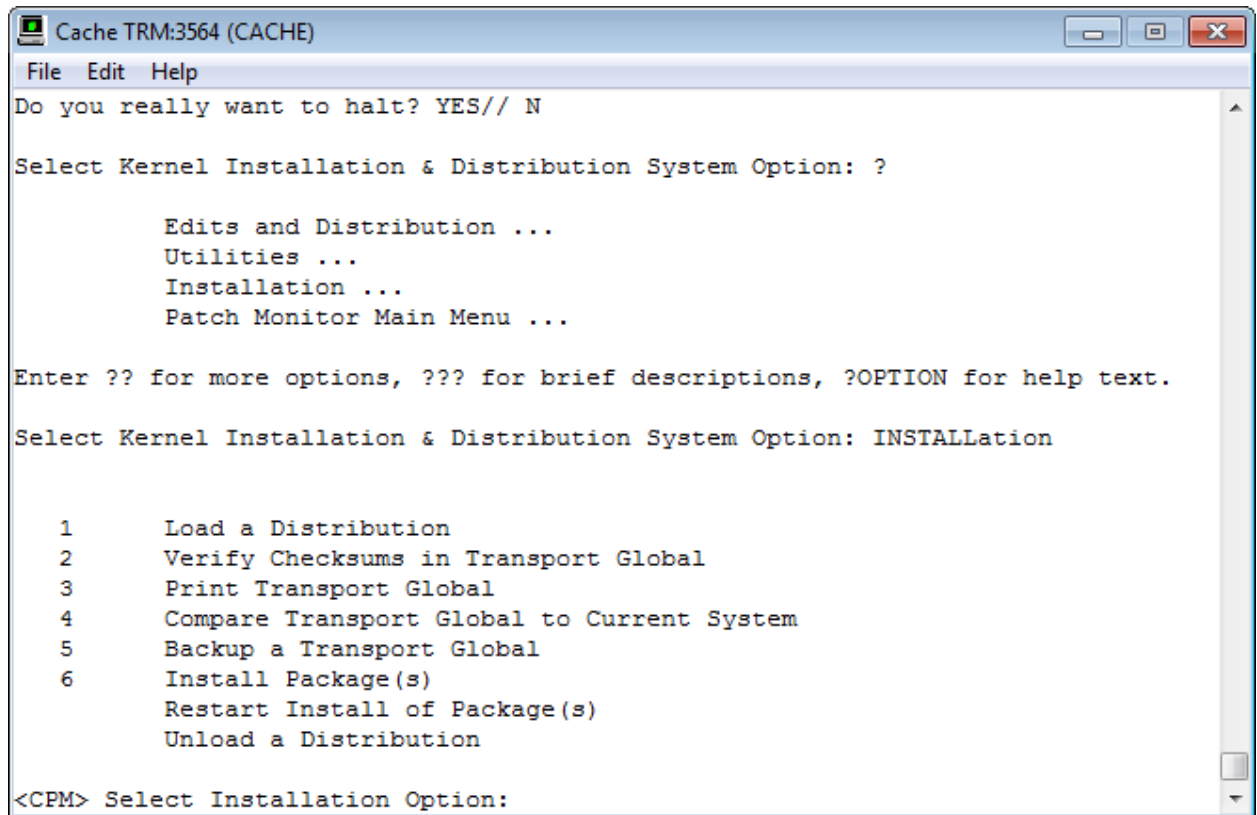

Select Kernel Installation & Distribution System Option: ?

      Edits and Distribution ...
      Utilities ...
      Installation ...
      Patch Monitor Main Menu ...

Enter ?? for more options, ??? for brief descriptions, ?OPTION for help text.

Select Kernel Installation & Distribution System Option:
```

2. Choose "Installation"

3. And then "Load a Distribution", the path to the KIDS (C:\VEFB_1.1_T2.KID), and choose "Yes" to continue with load

```
Cache TRM:3564 (CACHE)
File Edit Help

Select Kernel Installation & Distribution System Option: INSTALLation

1      Load a Distribution
2      Verify Checksums in Transport Global
3      Print Transport Global
4      Compare Transport Global to Current System
5      Backup a Transport Global
6      Install Package(s)
      Restart Install of Package(s)
      Unload a Distribution

<CPM> Select Installation Option: LOAD a Distribution
Enter a Host File: C:\VEFB_1.0_1.KID

KIDS Distribution saved on May 18, 2015@07:00:10
Comment: INSTALL RAPTOR NOTE TITLES

This Distribution contains Transport Globals for the following Package(s):
  VEFB 1.0
Distribution OK!

Want to Continue with Load? YES//
```

4. The load should complete successfully. We can now install the KIDS using the build name shown. In the screenshot, the install name is: "VEFB 1.1". Choose "Install Package(s)"

```

<CPM> Select Installation Option: INSTALL Package(s)
Select INSTALL NAME: VEFB 1.0      5/18/15@07:09:21
      => INSTALL RAPTOR NOTE TITLES ;Created on May 18, 2015@07:00:10

This Distribution was loaded on May 18, 2015@07:09:21 with header of
      INSTALL RAPTOR NOTE TITLES ;Created on May 18, 2015@07:00:10
It consisted of the following Install(s):
      VEFB 1.0
Checking Install for Package VEFB 1.0

Install Questions for VEFB 1.0

Want KIDS to INHIBIT LOGONs during the install? NO//
Want to DISABLE Scheduled Options, Menu Options, and Protocols? NO//

Enter the Device you want to print the Install messages.
You can queue the install by enter a 'Q' at the device prompt.
Enter a '^' to abort the install.

DEVICE: HOME//
```

7. The install is completed

8. The new RAPTOR note titles can be verified by launching CPRS for the installation site, navigating to the “notes” tab and choosing to create a new note. Typing in “RAPT” for the search should make it easy to locate the new note titles

The screenshot displays the Vista CPRS application interface. The main window shows a patient record for BCMA, EIGHT (666-33-0008) with a provider of VEHU, ONE. The patient's last signed notes are listed, including a medication review from April 15, 2002. A 'Progress Note Properties' dialog box is open, allowing the user to select a note title from a list. The list includes 'RAPTOR <RAPTOR NOTE>', 'RAPTOR <RAPTOR SAFETY CHECKLIST>', 'RAPTOR NOTE', 'RAPTOR SAFETY CHECKLIST', 'REACTION <ADVERSE REACTION/ALLERGY>', 'REASSESSMENT <NURSING REASSESSMENT >', and 'RECONCILIATION <MEDICATION RECONCILIATION NOTE>'. The date/time of the note is set to May 18, 2015 at 07:21, and the author is Vehu, One - Scholar Extraordinaire. The dialog box also has 'OK' and 'Cancel' buttons.
